

## Team String Quartet: Progress Report 12/5

### Texting:

We can text user when a new offer was created.

### Subscription to a building:

in order to get texts user needs to subscribe to a building.

user can subscribe to more than one building

user can unsubscribe at any given point

### Live Feed Update

we are presenting most current offers in a live feed, to save users time

### Votes

we set a 3 votes counter to prevent the deletion of an offer by just one user

Email validation- through MIT people search

### Currently working on:

Cron-Jobs

NLP

Bug fixing

### To Do:

- Cron job integration
- Final email integration
- testing
- presentation
- prevent duplicated subscription
- UI/UX
- User login with devise gem
