# Critique of Trippy

---

By: Team String Quartet

---

# Pitch Strengths

---

- Identified specific sub-problems & their corresponding features.
  - Well organized slides with good and concise content.
  - Presented ideas and goals clearly
  - Cool idea to use facebook as a means of authentication.
-

# Points of Concern

---

- Would availability matching use existing APIs (e.g. google calendar), or would it be based on manual users' inputs?
  - Further define the intended time scale for availability
  - Specify if the creator of the cabal ("trip") is the only admin, or if all members are equal to each other.
  - Consider adding concepts of money or cost.
-

# Suggestions Moving Forward

---

- More concrete definition of what an “activity” means.
  - Better define what a budget is (i.e. a personal budget vs. a group budget).
  - Define the process and limitations of friend invitation.
  - How will monetary differences be resolved?
  - How does prioritizing/voting on an activity work?
-
